Landscaping with Native Plants of Texas

Gardeners use native plants for many reasons. In addition to providing year-round beauty with relatively little maintenance, landscaping with native plants contributes to the repair of the natural ecosystem and brings us closer to our environment. With such a diverse and spectacular array of native plant material available to the Texas gardener, the opportunities for creative and attractive landscapes are seemingly endless.

Landscaping with Native Plants of the Southwest: George ...

In this fully updated edition of Landscaping with Native Plants of the Southwest, George Oxford Miller provides the definitive guide to choosing the best of the best among the native plants of Arizona and New Mexico.

Landscaping with Native Texas Plants by George Oxford ...

Not much chance of that with these tough plants. The trend toward using native plants in landscaping has been one of the more heartening occurrences in gardening practices in recent years. It is easy to understand their appeal. Native plants meet many of the needs of the home gardener. They can provide year-round beauty with virtually no maintenance. Moreover, using native plants contributes to the repair of the natural ecosystem and makes our gardens a more integrated part of the environment.
